Virtual School Programming - Decision Making for Small Museums

Christina Sydorko
Educational Program Coordinator, Oil Museum of Canada
Email: christina.sydorko@county-lambton.on.ca

Facebook groups for consideration:

- Ontario Virtual Educators
- Intermediate Teachers of Ontario (Resource and Idea sharing)
- Ontario Teachers Grade 7/8 – Resources and Sharing
- Free Digital Teacher Resources (International)
- Teachers in a Virtual World (International)
- Ontario Primary Educators Resource and Idea Sharing

Note: Access to these groups are free. Generally, you will need a teaching license number to gain membership to these groups.

Karen Taylor
Director of Programs, The Canadian Canoe Museum
Email: karen.taylor@canoemuseum.ca

Gear/equipment we use:

Ipad/Tablet - the newer the better (improved mics/sound quality, low-light capability and image stabilization), but we used our 2015 ipad from 2015 to 2021 without issue.

Case Ipad/Tablet - we use “Megamount Professional Media Rig” case. Look for a “videographer” or “filmmaker” case for your ipad/tablet, it will have a “cold shoe” mount for your light and will attach to a standard tripod or monopod.

If you don't plan to mount a light, you can also put your tablet in an Otterbox, or other protective case and use a clamp-type mount. The best one paired with an Ipad Otterbox is the “Neewer Tablet Tripod Mount Adapter Tablet Clamp Holder.” It has a screw-tightened clamp which doesn't loosen, doesn't wobble and is easy to take on and off.

Monopod/Tripod - Highly recommend a monopod with “feet” for easy mobility. Our ‘high-end’ one is the iFootage Cobra 2 C180-II (it seems to be more expensive now than when we bought ours). The “Moman Unipod Monopod Tripod” is one of the better (more stable) cheaper ones I found.

Light - most on-camera LED lights will be fine. Ours is the Aperture MC which we purchased when we had a decent budget. Look for a dimmable or adjustable “on-camera” or “mini” LED light. Neewer or Ulanzi products are surprisingly good knockoffs of the brand name gear. Some lights come with a mount if not, you’ll need this to attach it to your ipad case.
